

BIO ETHANOL FIRE BASKET WITH CURVED STEEL FRONT

BIO-20-302

The ScandiFlames Curved Burner in steel is a freestanding bioethanol insert, designed to convert your traditional fireplace into an eco-friendly bioethanol fireplace. With a capacity of 1.5 liters and a burn time of up to 4 hours, this burner provides a beautiful flame in any room. Its unique design hides the burner, giving it a sleek appearance. Flame regulation and extinguishing tools are included. Ensure proper oxygen supply, if placing the burner in an existing fireplace.
